Note: List children in the order of their birth. Do not ditto names or dates. Use separate chart for each marriage of husband, wife, or child. Give references in detail. A mark placed within the small to be found as a child, or, a mark within the square may indicate that there is information on the other side of this same work chart.

If you put the family together like the census, it would look like this:

```

Alex Fletcher must have been in the Civil War or they lost a child between William K and Matilda. Don't know what happened between Matilda and Francis M. All the other children were close together.
