FORWARD

This Hemingway Genealogy chart grew out of Patricia Shedd's near life-long involvement with the Hemingways.

At the age of five Patricia was rescued from an orphanage by Tyler Hemingway, Ernest's uncle. Tyler brought her to his home in St. Louis to be raised as a member of his family. As flower girl, she took part in Ernest's wedding to Hadley Richardson. In 1936 she became a Hemingway officially by marrying Ernest's younger brother Leicester.

Patsy, as her friends knew her, followed a career as a civilian employee of the Army Map Service in Washington, D.C., compiling maps from aerial photographs. As she neared retirement she began preparation of a Hemingway genealogy. The precise work required for mapping may have enhanced the thoroughness with which she pursued the genealogy.

Patsy spent fifteen years in study of Hemingway family records and in visiting the homes of Hemingways and their relatives. From this long dedicated effort came her monumental volume: THE HEMINGWAYS PAST AND PRESENT AND

ALLIED FAMILIES, which traces the family history back through twelve generations.

In 1989 Patsy came to Oak Park to attend the Hemingway Foundation's celebration of Ernest's 90th birthday. She brought with her, and gave to the Foundation, this chart which diagrams and distills the findings she had published the year before. Preparation of the chart took her, she said, "a number of 8-hour days."

THE HEMINGWAYS PAST AND PRESENT had not included a bibliography, but Patsy brought to Oak Park in 1989 the carefully prepared list of references, which follows, on page 3 of the chart. Scholars will find book and chart to be sharpest as research tools when used together.

The Ernest Hemingway Foundation of Oak Park is proud to make public this unique contribution to Hemingway scholarship, and is grateful to Jacob Hemingway and Hugh Hemingway, Patsy's son and grandson respectively and executors of her estate, for permission to publish. Thanks are also given to Charles Bednar chairman of the Foundation's Museum Committee, for editing the chart and guiding it through a lengthy publication process.
